

BHUPESH KUMAR

Backend Developer

About Me

I am a Backend Developer with expertise in Node.js and Express. I specialize in building reliable and scalable server-side applications. With a strong understanding of JavaScript (ES6+), I focus on creating clean, efficient APIs and optimizing performance. I'm passionate about solving problems and delivering backend solutions that support seamless user experiences.

SKILLS

Java Script

React

MUI, Bootstrap

React Native

Node.js , Express

MongoDB

Tailwind css

Mysql

Java, C RDBMS

Linux

EDUCATION

BITS PILANI

Bachelor of Science(Computer Science)
2023-2026

2nd Sem (9.34 CGPA)

Government Polytechnic Saharsa

Diploma in Computer Science(3years)
2019-2022

CGPA - 8.78

INTERNSHIP

Full Stack Development

4 Months training from Edureka on MERN stack

REACT
UDEMY

PROJECTS

Blog Appn (MERN)

Ongoing project, Technology: React(for manage state use react query, node js mongoDB,express)

Link:<https://blogb71.netlify.app/>

STUDIO

Developed a cutting-edge web application for Eye Studio, leveraging the stack. Seamlessly integrated MongoDB for efficient data storage and retrieval. Implemented Express.js to create a robust backend, facilitating smooth API interactions. Utilized React.js to design a dynamic and intuitive user interface, enhancing user engagement and satisfaction.

Empowered with Node.js for scalable and efficient server-side logic. **This project build for a client, Link:**
